## 2023-2024 SCHEDULE OF FEES

In accordance with the Education Act, the cost of providing instruction, administration, and facilities for the education of students enrolled at State schools is met by the State. Parents are directly responsible for providing textbooks and other consumable resources for their children while attending school. In recognition that these costs can be high, the school operates a Student Resource Scheme that, for a specified annual participation fee, provides for the temporary use by the student of prescribed textbooks, other resources and the purchase of consumable materials for the student.

The Student Resource Scheme fees are based on the calculation of a standard fee scheduled for each year level and additional fees linked to subjects that require a higher level of consumable resources ("High Resource Subjects") or fees payable to training providers.
