BYO Laptop...
 This means that students are able to bring their personally owned laptop to school for the purpose of learning.

The benefits of students bringing their own laptop include:

- the ability to access the internet and secure cloud storage (via our secure portal)
- having access to digital textbooks and other resources
- using Microsoft's OneNote Class Notebook as the major platform for learning

In addition, students will consume less stationery throughout the year and take advantage of the Microsoft Office 365 suite of programs for no extra cost.

More information can be found by visiting our school website and by clicking on the quick link [Bring Your Own Device](#) or follow the link [Bring Your Own Device](#).
